

Burning ... With a Passion for Excellence

Cyclone Steel Services, LLC is a Houston-based steel fabrication provider that specializes in precision cutting and value-added processing of steel plate for critical applications in the oil & gas, petrochemical and other industries. We have been in business since 1979, serving an ever-growing clientele of engineering, manufacturing, fabricating and machining firms while earning a market-wide reputation for business integrity and service.

FACILITY

- 80,000 sq. ft. Purpose-Built facility
- (3) Multi-Torch Oxy-Fuel Machines
- (1) Std & (2) Hi-definition Plasma Machines
Including CNC Beveling
- (1) 10-ft Steel Plate Roll
- (2) CNC Vertical Machining Centers
- Long-Seam Welding Equipment for
16-ft OD x 10-ft Long Cylinders
- AWS & ASME Welding Stamps
- Two Shifts for Increased Machine Capacity

INVENTORY / MATERIALS

- ABS, API, ASME, ASTM Grades
- Domestic & Foreign Origin Steel
- 10-Ga to 10" Thickness
- 100% Mill Traceability
- Inventory
 - A36 - API-2H Gr 50 - A572-50
 - A516-70 AR - API-2W Gr 50 - A514 (T-1)
 - A516-70 N - A633-C - 4130
 - AH/DH/EH36 - A537 Class 1

MANUFACTURING SERVICES

- Multi-Torch Oxy-Fuel & Hi-def Plasma Cutting
- CNC Contour Beveling
- Machining
- Plate Rolling
- Long-Seam Welding
- Forming
- Water Jet, Grinding, NDE & More

QUALITY / TRACEABILITY

Cyclone Steel's legacy of reliability results from strict adherence to our customers' requirements, tightly controlled fabrication processes and use of a robust material tracking system.

4950 West Greens Road, Houston, Texas 77066
