

Since 1978, Superior Energies has provided innovative design, fabrication and installation services to customers in a wide range of industries for numerous applications. With an 11,000 sq. ft. fabrication shop, 75,000 sq. ft. warehouse, three acres of secured laydown area and the technical expertise of our highly-skilled team, we are fully equipped to handle your projects.

Our complete array of capabilities enables fast response, maximum flexibility and complete coordination of all project phases. Our solid financial position and commitment to quality and safety has enabled us to grow and yet remain extremely competitive in the market.

Our customers know they can rely on us to meet their exact specifications and requirements, regardless of scope, size or complexity of their project.

### Industries Served

Superior supports a variety of industries with precision quality, high-end engineered products and exceptional customer service. Our experienced staff of engineers, designers and installers is well-versed in the range of industries we serve.

|----------|--------------------|------------|----------------|-------------------|
| Refinery | Liquid Natural Gas | Chemical   | Oilfield       | Marine & Offshore |
| Pipeline | Pulp & Paper       | Commercial | Energy & Power | Transportation    |

### Field Services

We can provide a wide array of field services including insulation, fireproofing, blasting & painting, thermal spray aluminum (TSA), scaffolding, general labor, heat tracing, CUI & thermal surveys and engineering.

Insulation

Fireproofing

Blasting and Painting

TSA

Scaffolding

General Labor

Heat Tracing

## Specialized Metal Fabrication

Custom fabrication is at the pinnacle of Superior's growth. We can help you design custom metal components and manufacture what you need, whether it is just one small job or an entire project. Our manufacturing processes are intended for maximum diversity, meaning we can provide custom sheet metal fabrication services and produce products of nearly any shape and size - on time and within budget.

Mild gauge metals utilized:

- Sheet Metal
- Expanded Metal
- Perforated Metal
- Wire and Wire Mesh

Available in:

- Aluminum
- Stainless
- Galvanized
- Carbon
- Specialty Alloys

## Why Choose Superior?

Our goal is to establish and maintain long-term relationships with all of our customers, which means doing everything it takes to assure 100% satisfaction. Our versatility, excellence in design and customer focus are just a few reasons our customers come back to us project after project.

- ✓ From concept to finished product, our expertise in engineering, fabrication and installation will ensure your project requirements are met on time and within budget
- ✓ Whether your project is small or large, it will be handled by highly skilled, creative personnel with the goal of delivering the best in quality, service and value
- ✓ Since all project phases are handled in-house, we manage quality control throughout the design, fabrication and finishing phases. Quality assurance generates predictability and cost efficiency for better protection of your bottom line.
